“Industry 4.0”

TRUMPF Smart Factory Virtual Tour

Thursday, July 30, 2020, 4:00 pm CDT

- To Join:**
1. Go to <https://devry.webex.com/devry/k2/j.php?MTID=tc2ec8b380985d34fe7a48d4a16066024>
 2. Enter your name and email address.
 3. Enter the session password: **Guest**
 4. Click "Join Now".
 5. Follow the instructions that appear on your screen.

TRUMPF Industry 4.0

Until now, many people have believed that fully networked production is only possible in theory. We present proof to the contrary and demonstrate in Chicago how it actually works in practice. People, machines, automation, and software already perfectly interact together in the new TRUMPF technology center. In the Smart Factory, sheet metal workers experience networked production solutions in a realistic environment. Your production system is made transparent due to networking. You always know what is happening at a certain point in time and can plan better. Indirect processes are automated. You can produce faster and more flexibly; it is easier to manage your processes. An important advantage – especially for smaller lot sizes.
